National University Of Computer and Emerging Sciences
Karachi, Pakistan

1. **Abstract:**
   - Highlight major points of your research and explain why your work is   important;
   - What your purpose was, how you went about your project, what you learned,
   - And what you concluded.

2**. Introduction**:
   - Provide a brief overview of the project's background and context.
   - State the problem or research question your project aims to address.
   - Explain the significance and relevance of your project.

3. **Objectives:**
   - Clearly state the objectives or goals of your project. What do you intend to achieve?

4. **Scope:**
   - Describe the scope and limitations of your project.
   - Define the boundaries of your project and what is not included.

5. **Literature Review:**
   - Summarize relevant literature, theories, and previous research related to your project.
   - Identify gaps in the existing literature that your project will address.

6. **Methodology**:
   - Explain the research methods and techniques you plan to use.
   - Justify your choice of methodology and discuss its appropriateness for your project.
   - Include details about data collection, analysis, and any tools or software you will use.
   - System Block Diagram etc.

7. **Expected Outcomes:**
   - Clearly state the expected outcomes and contributions of your project.
   - Discuss how your project will advance the field or provide solutions to the identified problem.

8. **Timeline:**
   - Create a timeline that outlines the major milestones and deadlines for your project.
   - Include key activities and their estimated durations. (Gantt chart)

9. **Resources Required:**
   - List the resources, equipment, software, and materials you will need for your project.
   - Mention any special facilities or access requirements.

10**. Conclusion:**
   - Summarize the key points of your proposal.
   - Reinforce the importance of your project and its potential impact.

11. **References:**
   - List all the references cited in your proposal using the appropriate citation style (e.g., APA, MLA)
